## ARMY TRANSPORT HOLDS SUBMARINE WHILE NAVY VESSELS RUSH TO RESCUE

### General Goethals Pumping Air to Crew of Four Officers and Twenty-Five Men Submerged for Thirty-Six Hours.

WASHINGTON, Sept. 2.—The United States submarine S-5 was being kept barely at the surface of the Atlantic Ocean 55 miles east of Cape Henlopen tonight by a precarious hold secured on her stern by the General Goethals, an army transport, while a dozen vessels of the navy are racing from various points to her rescue.

With her crew of four officers and 26 men, the S-5 had been submerged for 36 hours, but thru a hole cut in her stern by the crew of the General Goethals enough air is being pumped to keep the men alive until naval equipment rushed on the fastest vessels available can get there to complete her rescue.

**Telephone Buoy Reveals Plight.**

NEW YORK, Sept. 2.—A telephone buoy tossing on the waves in the path of the Steamship General Goethals, revealed the plight of the crew of the submarine S-5, submerged for more than 35 hours off the Delaware Capes, according to information received tonight. The bell on the buoy was ringing and a small boat was immediately lowered from the General Goethals. The boat reached the buoy, cut in on the telephone apparatus on it and then from the depths of the sea came this message:

"The submarine S-5 has been submerged for 35 hours. Air is running short. Machinery damaged. Send for help."

The General Goethals immediately sent out radio messages telling of the plight of the submarine, and then stood by to render whatever aid was possible keeping in communication with the submerged vessel by means of telephone on the buoy.

An amateur wireless operator, sitting at his instrument at Farmington, Conn., hundreds of miles from the scene of the trouble, picked up the message from the air and made it public. During most of the afternoon the two ships rolled idly in the waves, unable to help, waiting for the navy to send ships, have the gear necessary to cut thru the steel hull of the submarine and release the imprisoned members of the crew.

Shortly before dusk tonight the telephone operator had been sitting all day with his ear to the slender wire that connected with the submerged vessel. The message above it received this message from the commander of the submarine:

"We must have more air."

There was no other message for some time. Officers of the two ships, realizing something must be done quickly to save the lives of the submerged men, immediately had apparatus rigged up which was lowered into the sea and connected with the submarine. Thru this the vessels pumped air into the undersea craft.

Commander Cook, who commands the submarine is from Arkansas. The other officers detailed to the S-5 as reported on August 1 are:

Lieutenant J. G. Gresham, home address not given; Ensign J. Bailey Longstaff, of Nebraska and Gunner Robert Holt, of Indiana.

No list of members of the crew of the crew of the submarine was available tonight.

Vessels Rushing to Rescue.

Captain B. F. Hutchinson, assistant chief of operations, said the battleship Ohio, from the southern drill ground, was under way for the spot as were two destroyers from the Norfolk base, a destroyer with naval constructors and special equipment from Philadelphia, and a fourth destroyer and the torpedo ship, Bridgeport, from New York.

The rescue vessels are under orders to get the men out first, Captain Hutchinson said, by raising and cutting into the submarine.

Messages from the General Goethals said that sufficient air had been gotten into the hull to "revive" the crew, and explained that the S-5's position in the war-torn Atlantic was the stern of the General Goethals are proving sufficient to hold her to the surface and men were landed who cut the hole thru which the air pipe was introduced. Ordinarily the air supply in a submarine of her type, Captain Hutchinson said, would suffice to keep her crew alive for 72 hours, but her peculiar position would indicate that much of the air had been lost.

**On Special Recruiting Duty.**

The S-5 has been on special recruiting duty at Atlantic ports. She is commanded by Lieutenant Commander C. M. Cook. Besides the General Goethals the Steamer Olanthos also is standing by and it is believed that the submarine can be held safely until the relief ships arrive.

The rescue boats are equipped to cut the side out of the submarine if necessary. Her peculiar position in the water probably has made it useless to attempt to take any of her men out of the occasionally used route of the torpedo tubes it was explained, because the tubes are in her bow and pointed towards the ocean bottom. The hole which the General Goethals has been able to make is only a small one and not large enough to withdraw any of the men.

### CONTRACT FOR ANTHRACITE MINING HAS BEEN SIGNED

Miners' Representatives Sign Agreement Under Protest

ASK REOPENING OF AGREEMENT

SCRANTON, Pa., Sept. 2.—Anthracite operators and miners tonight signed a two year contract embodying the terms of the award made by the Anthracite Coal commission and approved by President Wilson. The agreement was signed under protest by the representatives of the miners whose scale committee will meet here tomorrow to ask that the wage agreement be re-opened and the mine workers given such further increases as was done in the case of the bituminous coal diggers.

The scale committee went on record in a statement to the operators that award of the commission was far from being satisfactory, and that it was economically unsound, disturbed the differentials, straddled the real issues, would cause confusion and react against harmony and cooperation.

**Quit Work as Protest.**

While the negotiations were going on today it was estimated that at least half of the 170,000 mine workers of all classes in the Anthracite regions had quit work as a protest against the award. The United Mine Workers organization has called no strike and the suspension which has been termed a "vacation" by the men has not been authorized, union leaders declared. One of the union chiefs said it was a "voluntary uprising" by the coal diggers as a protest against the award.

Under the award accepted today contract miners will receive an increase in pay of 17 per cent; men employed by the day, known as company men, 20 per cent, and certain other unskilled labor 25 to 75 per cent.

It was said tonight the miners desire an additional increase of fifteen per cent for the contract miners and a further advance of two dollars a day for company men. Other demands also will be, it was said, so as to bring conditions and wages in the anthracite field up to those obtaining in the bituminous regions.

They immediately began to delve with their fingers into the sweet stuff.

### HARDING PLEADS FOR TEAM WORK THROUT NATION

Address Members of Chicago National League Team

KNOX CONFERS WITH CANDIDATE

MARION, O., Sept. 2.—Dividing his time between work and play, Senator Harding today made two front porch speeches, held several political conferences on political issues and campaign management and then went out to see a baseball game which was played in Marion as a special compliment to his enthusiasm as a fan.

The Chicago Cubs, brought here by their owners to give the nominee his first glimpse this season of a major league club, were matched against an improvised Marion team in an exhibition that resulted in a 3 to 1 victory for the visitors. Senator Harding pitched the first three balls across the plate and during the game he and Mrs. Harding cooed with several thousands of their neighbors for the home team.

One of the nominee's speeches, delivered earlier in the day, was to the Cub team which marched in a body to his front porch.

**Would Develop Team Work.**

Senator Harding declared his hope in the campaign was to develop team work among the American people so that the nation would still fly proudly the pennant of "Honesty" and "Hard Work" and "Team Work."

The other address was to a delegation representing various teachers' organizations and was in advocacy of better compensation for the teaching profession. He declined, however, to accede to a request made by his callers that he endorse the Smith-Towner bill providing for a federal department of education and a larger federal participation in school financing.

**Confers With Knox.**

Senator Philander C. Knox of Pennsylvania, former secretary of state and a leader among the irreconcilables of the senate during the treaty fight, was one of those with whom the nominee conferred during the day. The country's foreign policy was the subject of their talk.

In a statement tonight Senator Knox declared his conviction that the foreign policy of the Wilson administration would be repudiated at the November election and that Senator Harding's stand would commend itself to the voters of the country.

"The one great thing to be hoped for in the campaign," said Senator Knox, "is an adequate appreciation of its opportunities for the Republicans of all sections to record the protest against the maladministration of national affairs during the last eight years."

**Must Not Give Aliens Control.**

"Senator Harding has made it clear that we are not independent if we surrender any of our functions of government to an alien council, and but one thing can excuse such surrender of our independence and that is our conscious willingness to do so. Only an avowal of lethargy and indifference to the highest duties of enlightened government can justify transferring their discharge to strangers."

The delegation of teachers which called on the senator was headed by William T. McCoy of Chicago, and included representatives of the national educational association, the American Federation of teachers and several other organizations. In reply to the request for an endorsement of the Smith-Towner measure the nominee said he had been unable to study it closely enough to express an opinion.

"It is rather a curious indication of the trend toward federal control," he continued, "that at this very moment not less than four or five new cabinet officers are being proposed. I am not a miracle of human intelligence and cannot pretend to say to you today what ought to be done in each particular instance."

"I am not a student of the Smith-Towner bill and I could not be unfair as to glibly to pledge to you any specific action. But I do pledge you the most sympathetic concern and addition if responsibility comes upon me to call attention to the crisis in American education."

### PROTESTS AGAINST INTERFERENCE IN MACSWINEY CASE

Loyal Coalition Says That Starvation Is Self Inflicted

CASE NO CONCERN OF UNITED STATES

BOSTON, Sept. 2.—The loyal coalition of which Demarest Lloyd is president, today sent to Secretary Colby a telegraphic protest against interference in the case of Terence MacSwiney, lord mayor of Cork, who is on a hunger strike in an English jail.

"The starvation from which he is suffering is self-inflicted. The case is not in any sense a proper concern of the government of the United States," the protest said.

The loyal coalition, which has its headquarters here, was organized six months ago for the "purpose of carrying on an educational campaign against all hyphenated interests which seek to dominate our country, disrupt our relations with friendly nations, especially with the British commonwealth and annul the good results of the late war."

Its membership is limited to American citizens. Its principal activities have been in opposition to the Sinn Fein movement.

### WILL CLEAN UP WAR CONTRACT CONTROVERSIES

Government Takes Steps to Clean Slate of All Cases

BELIEVE "HONEST MISTAKES" MADE

WASHINGTON, Sept. 2.—(By The Associated Press.)—Prosecution of 324 contractors, marking the beginning of a move by the government to clean up its war controversies has been ordered by the department of justice. The proceedings will include both criminal and civil action and involve millions of dollars, department officials said today.

Practically all of the cases embraced by the prosecution order were turned over by the war department, but there were indications that similar cases would be received from other government departments.

The contracts on which action will be pressed were said to involve amounts ranging from a few thousand to a few millions each. They include agreements for the furnishing of supplies of nearly every commodity which the government purchased for war purposes as well as construction of camps, warehouses, cantonments and other facilities.

**Rechecking Data.**

Preparatory to instituting legal proceedings in most cases the government has started a rechecking of such data, and figures as it is planning later to pursue the investigation into the records of the firms and individuals whose contracts were questioned. This work will require several months and possibility of early settlement of most of the suits appears remote.

Officials expressed the belief that altho the war department had failed to reach an agreement many of the controversies would be settled out of court.

The war department abolished its fraud and graft investigating sections some months ago and its facilities for making necessary inquiries in most cases were limited.

**"Honest Mistakes" Made.**

With respect to a score or more of the contract settlements in dispute there was the belief that "honest mistakes" had been made by the contractor or sub-contractor and that an investigation of records would produce grounds on which adjustment of the matters could easily be made.

It was said that in other cases, however, plain fraud and conspiracy had been proved so clearly that no other course was open to the government excepting direct action looking to indictment of the law violators.

Robert T. Scott, assistant to the attorney general said it would be the policy of the government not to deal leniently with the fraud cases.

He explained, however, that contractors against whom civil proceedings only will be instituted would be given every opportunity to straighten out controversies before the matter was drawn into litigation. The contractors represent practically every section of the country and court action will be sought in local jurisdictions.

Several days before the death of Carranza, General Mariel surrendered to General Pablo Gonzalez, Dr. Diaz said.

"Then General Mariel gave orders to General Rodolfo Herrero who passed them on to Colonel Marquez, who led the attack which resulted in the assassination of President Carranza. Declaring his statement the first public one regarding official opinion in the matter, Dr. Diaz said full justice will be meted to General Mariel now in prison on legal proceedings."

### GREAT INTEREST IN REPUBLICAN SUCCESS SHOWN

No Time for Backbiting, Pulling or Hauling Says Hays

CHICAGO, Sept. 2.—Informal conferences of chairmen and vice-chairmen of the Republican state organizations from twenty states at Republican headquarters were continued today.

Will Hays, national chairman, tonight issued the following statement concerning the conference:

"The meetings have been most satisfactory. Reports from everywhere also show the same unprecedented interest in Republican success. This is simply a still further reflection of the conviction on the part of a great majority of the electorate that Republican success is the most important element making for the nation's greatest welfare."

"We have no time for backbiting, pullings or haulings. Continual charges and counter charges accomplish nothing. Serious problems confront the people and an honest effort to aid the electorate to act intelligently is the real duty of a political committee. There has never been such a spirit of victory in any campaign as was evidenced in these meetings yesterday and today."

### COX'S ANTE RAISED ONE MILLION BY EDMUND H. MOORE

Says Republicans Boasted Would Raise Sixteen Millions

COMMITTEE TO MEET IN PITTSBURGH

CHICAGO, Sept. 2.—Democratic witnesses today were unable to present to the senate committee investigating campaign expenditures the data on which Governor James M. Cox based his charges of a \$15,000,000 Republican campaign fund, because of the adjournment of the committee until next Tuesday.

At the request of Senators Reed and Pomerene, the Democratic members, Chairman Kenyon tonight issued list of subpoenas for witnesses, chief of whom is Edmund H. Moore, of Youngstown, Ohio, Governor Cox's personal representative. Mr. Moore was here today for the announced purpose of presenting to the committee all the data in Governor Cox's hands regarding campaign expenditures but he was not called during the brief session.

Several of the subpoenas issued were withheld from publication at the request of Senators Reed and Pomerene, the latter of whom returned to Chicago this morning from Columbus, where he had a conference with Governor Cox and Mr. Moore.

**Republican Leaders to Appear.**

Among those made public were six Republican leaders, including Harry M. Blair of Marion, Ohio, assistant to Fred W. Upham, Republican national treasurer.

The other five are Dudley S. Blossom, Cleveland; Garrett Kinney, Chicago; Walter S. Dickey, Kansas City, Mo.; John J. Bryson, Brazil, Ind.; and H. G. Garrett of Kentucky; they are chairmen of the Republican ways and means committee in their respective states, charged with the task of apportioning the Republican budget within their territories.

The six Republicans were called at the request of Senator Reed who announced that he wanted to find out how "Treasurer Upham's fund collecting machinery" was functioning in their representative states.

Decision of the committee to recess today to permit members to keep week-end speaking engagements was expected.

**Millions Are Flowing.**

Mr. Moore had appeared on the stand and had told newspaper men that he expected to present documents in support of Governor Cox's charges that millions were flowing into the Republican campaign chest.

The committee heard Senator Miles Polk of Washington and Herman K. Kanke, treasurer of the National Young Men's Republican League and then adjourned.

Mr. Moore told newspapermen that he would attempt to prove that the Republican leaders had publicly announced last January that they planned to raise a \$16,000,000 campaign fund and "had boasted of it."

He also declared that \$25,000 had been raised in Atlanta, Ga., prior to June 14, by a man who later "became so disgusted when Senator Warren G. Harding was nominated that he quit the party."

Mr. Upham testified earlier in the week that the quota of the entire state of Georgia was \$25,000 and said that \$2,500 was all that had been raised.

**To Meet at Pittsburgh.**

Failure to hear all witnesses today upset the committee's plan to meet in Pittsburgh next week and inquire into charges that the liquor interests there had assisted Attorney General Palmer's campaign for the Democratic nomination for president.

The plan however, has not been dropped and Senator Kenyon said before leaving Chicago tonight that the committee would go to Pittsburgh, probably as soon as it heard the witnesses subpoenaed here.

Lucerne, Switzerland, Sept. 2.—Premier Lloyd George of Great Britain will end his visit to Switzerland and return to England by the beginning of next week.

## HARDING PLEADS FOR TEAM WORK THROUT NATION

Address Members of Chicago National League Team

KNOX CONFERS WITH CANDIDATE

MARION, O., Sept. 2.—Dividing his time between work and play, Senator Harding today made two front porch speeches, held several political conferences on political issues and campaign management and then went out to see a baseball game which was played in Marion as a special compliment to his enthusiasm as a fan.

The Chicago Cubs, brought here by their owners to give the nominee his first glimpse this season of a major league club, were matched against an improvised Marion team in an exhibition that resulted in a 2 to 1 victory for the visitors. Senator Harding pitched the first three balls across the plate and during the game he and Mrs. Harding rooted with several thousands of their neighbors for the home team.

One of the nominee's speeches, delivered earlier in the day, was to the Cub team which marched in a body to his front porch.

Would Develop Team Work.

Senator Harding declared his hope in the campaign was to develop team work among the American people so that the nation would still fly proudly "the pennant won at home and held respected thruout the world."

The other address was to a delegation representing various teachers' organizations and was in advocacy of better compensation for the teaching profession. He declined, however, to accede to a request made by his callers that he endorse the Smith-Towner bill providing for a federal department of education and a larger federal participation in school financing.

Confers With Knox.

Senator Philander C. Knox of Pennsylvania, former secretary of state and a leader among the irreconcilables of the senate during the treaty fight, was one of those with whom the nominee conferred during the day. The country's foreign policy was the subject of their talk.

In a statement tonight Senator Knox declared his conviction that the foreign policy of the Wilson administration would be repudiated at the November election and that Senator Harding's stand would commend itself to the voters of the country.

"The one great thing to be hoped for in the campaign," said Senator Knox, "is an adequate appreciation of its opportunities for the Republicans of all sections to record the protest against the maladministration of national affairs during the last eight years."

Must Not Give Aliens Control.

"Senator Harding has made it clear that we are not independent if we surrender any of our functions of government to an alien council, and but one thing can excuse such surrender of our independence and that is our conscious willingness to do so. Only an avowed lethargy and indifference to the highest duties of citizenship government can justify transferring their discharge to strangers."

The delegation of teachers which called on the senator was headed by William T. McCoy of Chicago, and included representatives of the national educational association, the American Federation of teachers and several other organizations. In reply to the request for an endorsement of the Smith-Towner measure the nominee said he had been unable to study it closely enough to express an opinion.

"It is rather a curious indication of the trend toward federal control," he continued, "that at this very moment not less than four or five new cabinet officers are being proposed. I am not a miracle of human intelligence and cannot pretend to say to you today what ought to be done in each particular instance."

"I am not a student of the Smith-Towner bill and I could not be unfair as to glibly to pledge to you any specific action. But I do pledge you my most sympathetic attention and addition if responsibility comes upon me to call attention to the crisis in American union."

## PROTESTS AGAINST INTERFERENCE IN MACSWINEY CASE

Loyal Coalition Says That Starvation Is Self Inflicted

CASE NO CONCERN OF UNITED STATES

BOSTON, Sept. 2.—The loyal coalition of which Demarest Lloyd is president, today sent to Secretary Colby a telegraphic protest against interference in the case of Terence MacSwiney, lord mayor of Cork, who is on a hunger strike in an English jail.

"The starvation from which he is suffering is self-inflicted. The case is not in any sense a proper concern of the government of the United States," the protest said. The loyal coalition, which has its headquarters here, was organized six months ago for the "purpose of carrying on an educational campaign against all hyphenated interests which seek to dominate our country, disrupt our relations with friendly nations, especially with the British commonwealth, and annul the good results of the late war."

Its membership is limited to American citizens. Its principal activities have been in opposition to the Sinn Fein movement.

## TWO THOUSAND DELEGATES AT LEGION MEETING

Organization Shows a Great Gain in the Past Year

CHICAGO, Sept. 2.—Two thousand delegates to the second annual state convention of the American Legion, department of Illinois, assembled today to hear the annual report of Col. Milton J. Foreman, department commander, and former leader of the 122nd Field Artillery.

"At the Peoria convention the Illinois department had something more than 15,000 members and only 220 posts," he said. "The records on August 31, this year, showed 65,000 members and 682 posts."

"The legion has become one of the dominant factors thruout the state. Some of the downstate towns are controlled by this organization and they are thriving towns, too."

Franklin D. Oiler, national commander declared that "ex-service men soon will run this country, but not because they are heroes of a war. They are picked men. That is the reason they will run America. They have the health, the youth, the brains, and the ambition."

The election of officers will be held tomorrow.

## WILL CLEAN UP WAR CONTRACT CONTROVERSIES

Government Takes Steps to Clean Slate of All Cases

BELIEVE "HONEST MISTAKES" MADE

WASHINGTON, Sept. 2.—(By The Associated Press.)—Prosecution of 324 contractors, marking the beginning of a move by the government to clean up its war controversies has been ordered by the department of justice. The proceedings will include both criminal and civil action and involve millions of dollars, department officials said today.

Practically all of the cases embraced by the prosecution order were turned over by the war department, but there were indications that similar cases would be received from other government departments.

The contracts on which action will be pressed were said to involve amounts ranging from a few thousand to a few millions each. They include agreements for the furnishing of supplies of nearly every commodity which the government purchased for war purposes as well as construction of camps, warehouses, cantonments and other facilities.

Rechecking Data.

Preparatory to instituting legal proceedings in most cases the government has started a rechecking of such data, and figures as it is planning later to pursue the investigation into the records of the firms and individuals whose contracts were questioned. This work will require several months and possibility of early settlement of most of the suits appears remote.

Officials expressed the belief that altho the war department had failed to reach an agreement many of the controversies would be settled out of court.

The war department abolished its fraud and graft investigating sections some months ago and its facilities for making necessary inquiries in most cases were limited.

"Honest Mistakes" Made.

With respect to a score or more of the contract settlements in dispute there was the belief that "honest mistakes" had been made by the contractor or sub-contractor and that an investigation of records would produce grounds on which adjustment of the matters could easily be made.

It was said that in other cases, however, plain fraud and conspiracy had been proved so clearly that no other course was open to the government excepting direct action looking to indictment of the law violators.

Robert T. Scott, assistant to the attorney general said it would be the policy of the government not to deal leniently with the fraud cases.

He explained, however, that contractors against whom civil proceedings will be instituted would be given every opportunity to straighten out controversies before the matter was drawn into litigation. The contracts represent practically every section of the country and court action will be sought in local jurisdictions.

## BLAME FOR DEATH OF CARRANZA IS FIXED ON MARIEL

Alleged He is Personally Responsible for Death

SAID TO HAVE GIVEN ORIGINAL ORDERS

NEW YORK, Sept. 2.—Official government opinion in Mexico on the death of former President Carranza places the blame upon General Mariel as the man personally responsible according to a statement given out here today by Dr. Alvaro Torre Diaz, Mexican minister to Brazil, who is stopping here enroute to Rio de Janeiro. Several days before the death of Carranza, General Mariel surrendered to General Pablo Gonzalez, Dr. Diaz said.

"Then General Mariel gave orders to General Rodolfo Herrero who passed them on to Colonel Marquez, who led the attack which resulted in the assassination of President Carranza. Declaring his statement the first public one regarding official opinion in the matter, Dr. Diaz said full justice will be meted to General Mariel now in prison on legal proceedings."

Discussing the political situation in Mexico, Dr. Diaz said the new government had the entire confidence and support of all the people including thousands of former rebels.

Several of the subpoenas issued were withheld from publication at the request of Senators Reed and Pomerene, the Democratic members, Chairman Kenyon tonight issued list of subpoenas for witnesses, chief of whom is Edmund H. Moore, of Youngstown, Ohio, Governor Cox's personal representative. Mr. Moore was here today for the announced purpose of presenting to the committee all the data in Governor Cox's hands regarding campaign expenditures but he was not called during the brief session.

## GREAT INTEREST IN REPUBLICAN SUCCESS SHOWN

No Time for Backbiting, Pulling or Hauling Says Hays

CHICAGO, Sept. 2.—Informal conferences of chairmen and vice-chairmen of the Republican state organizations from twenty states at Republican headquarters were continued today.

Will Hays, national chairman, tonight issued the following statement concerning the conferences:

"The meetings have been most satisfactory. Reports from everywhere also show the same unprecedented interest in Republican success. This is simply a still further reflection of the conviction on the part of a great majority of the electorate that Republican success is the most important element making for the nation's greatest welfare."

"We have no time for backbiting, pullings or haulings. Continual charges and counter charges accomplish nothing. Serious problems confront the people and an honest effort to aid the electorate to act intelligently is the real duty of a political committee. There has never been such a spirit of victory in any campaign as was evidenced in these meetings yesterday and today."

Rock Island, Ill., Sept. 2.—The sudden death this morning of Joseph E. Dyas, of Paris, Ill., past grand commander of the Knights Templar of Illinois, cast a pall over the thousands of visiting knights in the city attending the second day's session of the state convention being held here.

## COX'S ANTE RAISED ONE MILLION BY EDMUND H. MOORE

Says Republicans Boasted Would Raise Sixteen Millions

COMMITTEE TO MEET IN PITTSBURGH

CHICAGO, Sept. 2.—Democratic witnesses today were unable to present to the senate committee investigating campaign expenditures the data on which Governor James M. Cox based his charges of a \$15,000,000 Republican campaign fund, because of the adjournment of the committee until next Tuesday.

At the request of Senators Reed and Pomerene, the Democratic members, Chairman Kenyon tonight issued list of subpoenas for witnesses, chief of whom is Edmund H. Moore, of Youngstown, Ohio, Governor Cox's personal representative. Mr. Moore was here today for the announced purpose of presenting to the committee all the data in Governor Cox's hands regarding campaign expenditures but he was not called during the brief session.

Several of the subpoenas issued were withheld from publication at the request of Senators Reed and Pomerene, the latter of whom returned to Chicago this morning from Columbus, where he had a conference with Governor Cox and Mr. Moore.

Among those made public were six Republican leaders, including Harry M. Blair of Marion, Ohio, assistant to Fred W. Upham, Republican national treasurer.

The other five are Dudley S. Blossom, Cleveland; Garrett Kinney, Chicago; Walter S. Dickey, Kansas City, Mo.; John J. Bryson, Brazil, Ind. and H. G. Garrett of Kentucky; they are chairmen of the Republican ways and means committee in their respective states, charged with the task of apportioning the Republican budget within their territories.

The six Republicans were called at the request of Senator Reed who announced that he wanted to find out how "Treasurer Upham's fund collecting machinery was functioning in their representative states."

Decision of the committee to recess today to permit members to keep week-end speaking engagements was expected.

Millions Are Flowing.

Mr. Moore had appeared on the stand and had told newspaper men that he expected to present documents in support of Governor Cox's charges that millions were flowing into the Republican campaign chest.

The committee head Senator Miles Polk, of Washington and Herman A. Kanke, treasurer of the National Young Men's Republican League and then adjourned.

Mr. Moore told newspapermen that he would attempt to prove that the Republican leaders had publicly announced last January that they planned to raise a \$16,000,000 campaign fund and "had boasted of it."

He also declared that \$25,000 had been raised in Atlanta, Ga., prior to June 14, by a man who later "became so disgusted when Senator Warren G. Harding was nominated that he quit the party."

Mr. Upham testified earlier in the week that the quota of the entire state of Georgia was \$25,000 and said that \$2,508 was all that had been raised.

To Meet at Pittsburgh.

Failure to hear all witnesses today upset the committee's plan to meet in Pittsburgh next week and inquire into charges that the liquor interests there had assisted Attorney General Palmer's campaign for the Democratic nomination for president.

The plan, however, has not been dropped and Senator Kenyon said before leaving Chicago tonight that the committee would go to Pittsburgh, probably as soon as it heard the witnesses subpoenaed here.

## A WALKOUT WITH MINERS NAME.

Miners in Pennsylvania have voted to go on a walkout. This is a new term for a walkout and may be an example of that figure of speech—euphony. But the sad fact remains that the effect will be just the same as a strike or a walkout.

After all, that's the trouble with the whole situation. There are too many vacations so far as production is concerned.

## THE FOOLISHNESS OF EPITHETS.

Without doubt Mayor Thompson strengthened the cause of Gov. Lowden by his free use of epithets. When a campaign contest descends to such personali-

ties and to such reckless charges without accompanying evidence, the attacks react. Mayor Thompson's cause was weakened when he referred to the chief executive of Illinois as a crook and liar.

## WOULD AID THE CAUSE.

Bernard Baruch is now accredited with being the angel financing the project to distribute "the story of the league." This has been accounted as British propaganda in behalf of the league plan and circulated at this time in order to secure Democratic votes. Mr. Baruch who was connected with the Wilson administration during the war time in a very prominent way, has reasons for feeling very friendly to the president.

## THE ANSWER GIVEN.

Announcement has been made that the mills of the American Woolen Mill Co. in the east are to reopen in the course of a few days. This will mean that the 30,000 employees who were laid off a few weeks ago when the mills closed will again have employment. Thus Mr. Gomps and associates have their answer to the charge so freely made that the mills have shut down for campaign purposes and would continue so until after election in the hope of influencing the votes of employees for the Republican ticket.

## THIS DOESN'T LOOK LIKE LOWER COSTS.

Some students of conditions still insist that business has begun on lower levels. Nevertheless the International Paper Co., the largest producers of newsprint in the U. S., have just announced an increase in the price of print for the remaining three months of the year. The price to be effective will be \$125 a ton. "This same company, generally regarded as very fair in its dealings, also recently announced the necessity of reducing the tonnage of all customers, 20 per cent for the year 1921. A higher price and less quantity are not indicative of lower business costs and the conditions in the newsprint industry are duplicated in some others.

## EFFECTIVE COMPETITION A SNARE.

"The great weakness of the Democratic party is the impractical character of its leadership," declares the Republican Publicity association.

"This has been repeatedly admitted by Democrats after their party has been placed in power. An illustration of the impractical idealism has been seen in nearly all of the important public acts of President Wilson. One of the first steps taken by him after his election was the calling of a special session of congress to revise the tariff, and in his message at the opening of the session he asserted that 'the object of tariff duties must be effective competition, the whetting of American wits by contact with the wits of the rest of the world.'

"Effective competition" and "whetting of wits" were phrases that appealed to popular favor and won the votes of many people who did not stop to analyze the expressions. If competition is to be effective it must be successful, and if foreign competition is successful in the American market it means the closing of American mills means the discharge of American workmen and the sending of American money abroad to buy goods made by foreign labor. Mr. Wilson misled the people when he assumed that the outcome of competition between American and foreign producers depends upon wits. True, it depends somewhat on wits, but it is affected far more by standards of living, scales of wages and conditions of work. The Japanese and Chinese work long hours

exploit child labor, live in mere hovels, eat the plainest of food and care little for what Americans consider the comforts of life. Conditions are somewhat better in European countries, but a British commission which was sent to this country to investigate conditions expressed surprise at the higher standards of living among American workmen.

## Rippling Rhymes By Wait Mason

## The Release.

When Old Hiram Rumble was planted, I sighed like a son of a gun, altho I was rather enchanted to know that his troubles were done. Some symptoms of grief are expected, when neighbors or friends pass away; we have to look sad and dejected, and give our emotions some play. When old Hiram Rumble was living, he cornored all anguish and pain; each hour in its passing was giving some joint an additional strain. His nights were lead-footed and sleepless, his days had the semblance of years; and if he was dry-eyed and weepless 'twas because he had run out of tears. But now all his torture is ended, he sleeps in his tomb like a child; then why should our garments be rended, and why should our wailings be wild? Above him the blue grass is seeded, above him the daisies have grown; the heat of the summer's unheeded, the cold of the winter's unknown. Rheumatics may torture and rack us, and put all our lives out of tune all manners of ills may attack us, but Hiram is strictly immune. And so I knew little of sorrow when over his casket I stood; I doubt if old Hiram would borrow one hour of his life if he could.

## "A Broadway Cowboy"

He was a matinee idol, beloved by the girls because he was so handsome and looked so heroic. Even a matinee idol will fall for a girl and he did—hard! To square himself with the one girl's chaperone, he told her he had known the damsel in Montana; he furthermore intimated that he had ridden bucking bronchos, killed Indians and everything. And then—O unkind Fate! He had to make good on his boasts! A riotous comedy feature, filled with thrills and the most astonishing surprises; one of the very greatest pictures of the year.

## A WALKOUT WITH ANOTHER NAME.

Miners in Pennsylvania have voted to go on a vacation. This is a new term for a walkout and may be an example of that figure of speech—euphony. But the sad fact remains that the effect will be just the same as a strike or a walkout.

After all, that's the trouble with the whole situation. There are too many vacations so far as production is concerned.

## THE FOOLISHNESS OF EPITHETS.

Without doubt Mayor Thompson strengthened the cause of Gov. Lowden by his free use of epithets. When a campaign contest descends to such personali-

ties and to such reckless charges without accompanying evidence, the attacks react. Mayor Thompson's cause was weakened when he referred to the chief executive of Illinois as a crook and liar.

## WOULD AID THE CAUSE.

Bernard Baruch is now accredited with being the angel financing the project to distribute "the story of the league." This has been accounted as British propaganda in behalf of the league plan and circulated at this time in order to secure Democratic votes. Mr. Baruch who was connected with the Wilson administration during the war time in a very prominent way, has reasons for feeling very friendly to the president.

## THE ANSWER GIVEN.

Announcement has been made that the mills of the American Woolen Mill Co. in the east are to reopen in the course of a few days. This will mean that the 30,000 employees who were laid off a few weeks ago when the mills closed will again have employment. Thus Mr. Gompers and associates have their answer to the charge so freely made that the mills have shut down for campaign purposes and would continue so until after election in the hope of influencing the votes of employees for the Republican ticket.

## THIS DOESN'T LOOK LIKE LOWER COSTS.

Some students of conditions still insist that business has begun on lower levels. Nevertheless the International Paper Co., the largest producers of newsprint in the U. S., have just announced an increase in the price of print for the remaining three months of the year. The price to be effective will be \$125 a ton.

"This same company, generally regarded as very fair in its dealings, also recently announced the necessity of reducing the tonnage of all customers 20 per cent for the year 1921. A higher price and less quantity are not indicative of lower business costs and the conditions in the newsprint industry are duplicated in some others.

## EFFECTIVE COMPETITION A SNAKE.

"The great weakness of the Democratic party is the impractical character of its leadership," declares the Republican Publicity association.

"This has been repeatedly admitted by Democrats after the party has been placed in power. An illustration of the impractical idealism has been seen in nearly all of the important public acts of President Wilson. One of the first steps taken by him after his election was the calling of a special session of congress to revise the tariff, and in his message at the opening of the session he asserted that 'the object of tariff duties must be effective competition, the whetting of American wits by contact with the wits of the rest of the world.'

"Effective competition" and "whetting of wits" were phrases that appealed to popular favor and won the votes of many people who did not stop to analyze the expressions. If competition is to be effective, it must be successful, and if foreign competition is successful in the American market it means the closing of American mills. The closing of American mills means the discharge of American workmen and the sending of American money abroad to buy goods made by foreign labor. Mr. Wilson misled the people when he assumed that the outcome of competition between American and foreign producers depends upon wits. True, it depends somewhat on wits, but it is affected far more by standards of living, scales of wages and conditions of work. The Japanese and Chinese work long hours

exploit child labor, live in mere hovels, eat the plainest of food and care little for what Americans consider the comforts of life. Conditions are somewhat better in European countries, but a British commission which was sent to this country to investigate conditions expressed surprise at the higher standards of living among American workmen.

## Rippling Rhymes By Wait Mason

The Release.

When Old Hiram Rumble was planted, I sighed like a son of a gun, altho I was rather enchanted to know that his troubles were done. Some symptoms of grief are expected when neighbors or friends pass away; we have to look sad and dejected, and give our emotions some play. When old Hiram Rumble was living, he cornered all anguish and pain; each hour in its passing was giving some joint an additional strain. His nights were lead-footed and sleepless, his days had the semblance of years; and if he was dry-eyed and weepless 'twas because he had run out of tears. But now all his torture is ended, he sleeps in his tomb like a child; then why should our garments be rended, and why should our wallings be wild? Above him the blue grass is seeded, above him the daisies have grown; the heat of the summer's unheeded, the cold of the winter's unknown. Rheumatics may torture and rack us, and put all our lives out of tune all manners of ills may attack us, but Hiram is strictly immune. And so I knew little of sorrow when over his casket—I stood; I doubt if old Hiram would borrow one hour of his life if he could.

## WOODSON CHICKEN FRY LARGELY ATTENDED

## JACKSONVILLE MAY GET NEXT CONFERENCE

The Centenary Methodist Episcopal church of this city has issued an invitation to other Methodist churches to hold their annual conference in this city in the year 1921. The year 1921 will be the 100th anniversary of the Jacksonville Centenary church and incidentally the 75th anniversary of Illinois Woman's college. If this conference should be held in Jacksonville it would bring a great assembly of people into the city with two or three hundred ministers also in attendance and in all would be an event of great importance and a benefit to the city.

Mr. and Mrs. Daniel Kepler of Pasadena, Cal., are enjoying a visit with the former's brother, William Kepler of South Jacksonville.

## School Picnic.

The members of the Methodist Sunday school of Murrayville held a picnic at Nichols Park Thursday afternoon. A large number of people gathered at the park about 3:30 p. m. In the afternoon they engaged in a game of modified baseball. The children had a grand time playing on the children's playground and all members enjoyed a merry and pleasant afternoon. The ladies brought full lunch baskets and at six o'clock the picnicers enjoyed a splendid supper, starting on their homeward journey at 8:30 p. m. The party came over in automobiles. Those bringing automobiles were J. L. Wyatt, Roy Clark, Warren Wright, Mrs. King J. E. Thompson, John Carlson, J. K. Cunningham, Miss Nettie Millon, Harry Cade, Fred Simpson, Albert Hayes and Mrs. Lydia White.

## COMING TO THE GRAND

George E. Wintz, producer of "Going Up," "Betty Be Good," and other high class musical comedies will offer the patrons of the Grand on Monday, Sept. 6, his latest and greatest effort, "Cheer Up Mabel." This production is regarded as one of the leaders of its kind in the class of popular priced musical shows.

The company numbers 35 players comprising such principles as Nyra Brown, John G. Getz, Helen Janis, Bill Barber, Betty Earl, Seymour Sisters, Leonard Phillips and Virginia White. From a fashion viewpoint, "Cheer Up Mabel" is declared to be a real pace-maker. In the "Fashion Girl" number it is said that the models will wear \$10,000 worth of gowns. The piece is in two acts and seven scenes staged in a gorgeous and spectacular manner, characteristic of Geo. E. Wintz's offerings in other seasons. A lively chorus of Broadway blonds, brunettes and Titian haired beauties in feminine finery dance and prance on a gorgeous illuminated jeweled flirtation walk which extends back 20 rows into the audience.

Lewis Frogge and family of 1214 Center street left Thursday to visit in Monticello Kentucky.

Musie was furnished by the Merritt band which arrived early and kept going thruout the day. ### SIMPLE HOME REMEDY ADVISED FOR HAY FEVER

Anyone Can Make a Pint for  
Trifling Sum and Used in Time  
May Prevent Annual Attack.

"No matter how severe your yearly attack be.  
"No matter how distressing or humiliating.  
"This intensity can be reduced to a harmless mildness," says a Kentucky druggist, who believes from what he has seen that this simple home made remedy is a most important discovery.  
He has seen the most severe and apparently unquarable cases of Hay and Rose fever reduced to what might be called a mild cold in twenty-four hours.  
In many cases where the patient started treatment a week or ten days before the expected attack, the unwelcome yearly visitor failed to appear with anything like its usual intensity.  
People who want to try this new treatment can make a pint in a few minutes.  
Pour three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.  
That's all there is to the treatment which so many sufferers have found to be a true friend.  
Mentholized Arcline in three-quarter-ounce vials is dispensed by all the better pharmacies.  
Mentholized Arcline is new to this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

## SIMPLE HOME REMEDY ADVISED FOR HAY FEVER

Anyone Can Make a Pint for  
Trifling Sum and Used in Time  
May Prevent Annual Attack.

"No matter how severe your yearly attack be.

"No matter how distressing or humiliating—

"Its intensity can be reduced to a harmless nuisance," says a Kentucky druggist, who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unquarable cases of Hay and Rose fever reduced to what might be called a Mild Cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack, the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Four three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled, gargle daily as directed and sniff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in three-quarter-ounce vials is dispensed by all the better pharmacies.

Mentholized Arcline is new in the market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

### PROMINENT MAN TELLS HOW HE WAS BENEFITED

Stys Trutona Gave Him More Relief Than Any Other Medicine Ever Taken.

Decatur, Ill., Sept. 2.—A striking feature of the scores of testimonials given daily, by the grateful users of Trutona, is the large number which come from well-known and prominent people, many of whom have heretofore been disinclined to publicly endorse any preparation. Read what Lewis Drum, a prominent Decatur real estate dealer of 1293 West Forrest Avenue, says about Trutona, in the following statement:

"For about two years I had been in a run-down condition. My appetite was very poor. Everything I ate seemed to have a sour taste. I knew my system needed toning up, and thinking that I needed something in the way of a tonic, I tried Trutona.

"This medicine has given me splendid results, and I can recommend it as a new system builder. Trutona has given me more relief than any other medicine I've ever taken."

Such a statement coming from a man of Mr. Drum's business and social standing, should do much to convince the most skeptical that Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthy appetite and assists in the assimilation and digestion of the food.

Trutona is sold in Jacksonville by Goover & Shreve, by Wyle Drug Co., Franklin, Ill., and by Wyle Drug Co., Waverly, Ill.—Adv.

COLUMBUS, O., Sept. 2.—Governor Cox left here tonight on a month's swing around the circle, thru the west.

In Michigan tomorrow the Democratic presidential candidate starts his speaking trip, the most extensive political tour undertaken since William J. Bryan's in 1896—which will take him around nine thousand miles thru twenty-two states and end October 3 at St. Louis.

The governor expects to reach many hundreds of thousands of persons with the doctrines of Democracy on the tour arranged to traverse the northern tier of states to Bellingham, Wash., back to Utah, thence to San Francisco and east via Los Angeles and the south and central west states.

The governor will spend the last month of his campaign in the east and middle west.

Discuss Many Subjects.

The league of nations, progressivism and Republican finances are scheduled to be the principal themes of the governor's tour, which will include many rear platform addresses.

Thru Michigan tomorrow he said he expected to weigh on Republican contributions and possibly, present some new information in support of his charges that "a \$15,000,000 corruption fund" was being raised.

The governor will open his Michigan tour early tomorrow morning with five minute rear platform addresses at Tecumseh and Manchester.

He will stop at Jackson for a half hour speech, and arriving at Lansing about noon, is to make two more extensive addresses with evening appointments at Battle Creek and Kalamazoo.

Agricultural problems were discussed by the candidate here today before representatives of the national board of farmer organizations. The governor said that he would name "dirt farmers" to responsible government positions and declared for co-operative selling and purchasing by farmers.

CONDITION OF MRS. C. M. DUEB SLIGHTLY IMPROVED

### POLAND REFUSES TO JEOPARDIZE HER OPERATIONS

Will Not Bind Herself to Artificial Boundary Lines

STATE DEPARTMENT MAKES TEXT PUBLIC

WASHINGTON, Sept. 2.—Poland has declined to jeopardize her military operations against the Bolsheviks by binding herself to regard the "artificial boundaries" laid down at the peace conference.

Replying to Secretary Colby's suggestion that Poland remain within the lines specified by the peace conference, the Polish government states its position as follows:

"Notwithstanding the sympathetic attitude of our allies the Polish nation had to face the danger alone, and political events proved that it must in the first place rely upon its own military strength. If military operations necessitated the measures to prevent a renewed invasion of Poland it could hardly be considered fair that artificial boundaries that do not bind one opponent, should interfere with the military operations of the other."

Miss Esther Nunes of 322 West Walnut street has gone to Waverly to visit at the home of Chas. Sheppard.

PROMINENT MAN  
TELLS HOW HE

Stys Trutona Gave Him More Relief Than Any Other Medicine Ever Taken.

Decatur, Ill., Sept. 2.—A striking feature of the scores of testimonials given daily, by the grateful users of Trutona, is the large number which come from well-known and prominent people, many of whom have heretofore been disinclined to publicly endorse any preparation. Read what Lewis Drum, a prominent Decatur real estate dealer of 1233 West Forrest Avenue, says about Trutona, in the following statement: "For about two years I had been in a run-down condition. My appetite was very poor. Everything I ate seemed to have a sour taste. I knew my system needed toning up, and thinking that I needed something in the way of a tonic, I tried Trutona.

"This medicine has given me splendid results, and I can recommend it as a new system builder. Trutona has given me more relief than any other medicine I've ever taken."

Such a statement coming from a man of Mr. Drum's business and social standing, should do much to convince the most skeptical that Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthy appetite and assists in the assimilation and digestion of the food.

Trutona is sold in Jacksonville by Gouwer & Shreve, by Wyle Drug Co., Franklin, Ill., and by Wyle Drug Co., Waverly, Ill.—Adv.

### A ROMANTIC MARRIAGE

Mrs. J. Herman has received word of the wedding in Coblenz, Germany, of her nephew, Harry Stiff, to a fine Jewish young lady, Miss Marguerite Ackerman. The young lady's family formerly lived in Isaac and Lorraine but a year or more ago moved to Coblenz, where the young people became acquainted. They are a fine, prominent family, cultivated and well bred. The fair bride speaks French and English almost as her native German and is an accomplished housekeeper and well versed in domestic life as well as being highly accomplished.

The groom was in the service till some time after the war as his services were so valuable in the office of the commander they were unwilling to part with him. His return to America is still undecided as to date and it is possible that Mrs. Stiff's parents will make this land their home also. Abundant happiness is wished for the young people by a host of friends.

A great deal of physical distress is the result of an interference with Nature's way to keep the body in health. For this reason the more one knows about the body the better chance there is to resist disease and enjoy health.

The human structure is so constituted that it is unnatural for disease to creep in. The nerve system is designed to give health to all organs and keep them in repair. But Chiropactic that wonderfully successful drugless health science, has discovered that disease of any part of the body, headaches, stomach trouble, rheumatism, etc., is due to an interference with the flow of nerve energy to these affected organs, caused by the pressure of the bones of the spine on certain nerves. The Chiropactor detects defects in the spine and by scientific adjustments relieves the pressure and removes the cause of the trouble.

When the distribution of energy is restored to normal, the weak and diseased organs are again supplied with sufficient power and the natural healing forces build up and strengthen them. Health follows naturally. Every progressive, thinking man and woman should know about

Local friends of E. P. Cleary will be sorry to know of his recent injury at his farm near Old Mission, Mich. Mr. Cleary while unhitching a horse was kicked in such a way that one rib was broken. He was unconscious for a time and some time elapsed after the accident before the members of the family were aware of it. ## H. C. MONTGOMERY DIED THURSDAY

Prominent Educator Passes Away After an Illness of Several Months—Had Resided Here All His Life.

Harry C. Montgomery, prominent in educational work in this county for many years, died at his home, 121 North Prairie street, at 5:15 o'clock Thursday morning. Mr. Montgomery had been in failing health for several months. Wednesday he suffered a stroke of apoplexy and his condition continued to grow worse until the end.

Mr. Montgomery was the son of Mr. and Mrs. James L. Montgomery and was born in this city October 18, 1862. His father was one of the well known contractors of the city.

His education was received in the public schools of the city. After graduating from the high school he took the course at Brown's Business college where he graduated with honors.

Following this he took up teaching and from that time until three years ago he devoted his entire time to educational work. For a number of years he was an instructor in the high school.

At the solicitation of his friends he made the race for county superintendent of school and was elected. He was re-elected to this office for a number of terms and hundreds of citizens, regardless of party, appreciated his worth and ability, gave him loyal support.

## BABY BEEF SALE AT WAVERLY THURSDAY

Good Prices and Large Attendance Marked Sale of Baby Beef Calves—Interest in Various Livestock Exhibits Was Keen.

There was an attendance of more than 5,000 at the livestock exhibit and the sale of baby beef calves at Waverly Thursday. The event was arranged by the Baby Beef club and was under the direction of Edward L. Dillion of the agricultural department of the Waverly township high school.

A great deal of interest was shown in all the displays of livestock, the showing of hogs being especially good. More than seventy-five high class animals were shown in this section. The Morgan county Duroc Breeders association had a number of entries, contributing quite materially to the showing made. Interest was also keen in the exhibits of draft horses and mules of different classes.

The sale of the baby beef calves exceeded the expectations of those in charge of the affair. The buying was largely by Roy Overly, head buyer for Armour & Co., at the national stock yards and the prices were considered very satisfactory. The top prices paid was 18c a pound, the figures varying according to the quality of the beef.

Cash prizes totalling \$100 were offered in the baby beef contest and the first prize of \$20 was won by Glenn McKee. In addition to this prize young McKee was awarded a registered Duroc gilt contributed by Clifford Harris of the Waverly precinct. The judge in this contest was Mr. Smith of the animal husbandry department of the University of Illinois, assisted by Mr. Overly of Armour & Co. In judging horses and mules Mr. Smith was assisted by J. L. Henry of Jacksonville.

The calves which were sold yesterday were purchased last October by Mr. Thompson, who was then in charge of the agricultural department of the township high school. The calves were sold to the boys at that time and feeding and caring for them has since been the task of the youthful owners. Mr. Thompson resigned in February and the work of the club has since then been in charge of Edward L. Dillion, his successor.

The expense of the sale yesterday was met by contributions from business men and citizens of Waverly, no admission being charged for the various exhibits.

#### MR. CLEARY INJURED BY KICKING HORSE

Local friends of E. P. Cleary will be sorry to know of his recent injury at his farm near Old Mission, Mich. Mr. Cleary while unhitching a horse was kicked in such a way that one rib was broken. He was unconscious for a time and some time elapsed after the accident before the members of the family were aware of it. There was some difficulty in securing a physician because of a medical convention in progress. Later it was found that Mr. Cleary had suffered a broken rib in addition to a number of cuts and bruises.

Because of this accident the return of Mr. and Mrs. Cleary to Jacksonville will be somewhat delayed. Mrs. Harriet Lander and children and Miss Helen Turner, who have spent the summer at the Cleary farm, are expected home tonight.

## BECOMES DIRECTOR OF PAN AMERICAN UNION

Dr. L. S. Rowe Assumes Directorship of Pan-American Union, Succeeding John Barrett—Has Intimate Knowledge of Latin-American Affairs.

WASHINGTON — Dr. L. S. Rowe today assumed the directorship of the Pan-American Union, succeeding John Barrett, who retired after 15 years service as directing head of the Union. The transfer of directorship took place in the presence of members of the Latin-American diplomatic corps, Secretary of State Coby and other high officials of the United States government.

The new director in formally accepting the office declared that his policy would be to foster "a smoothly operating international organization that makes for mutual confidence, good-will and above all, for the maintenance of peace."

"In entering upon the duties of director general of the Pan-American Union," said Dr. Rowe, "I desire to avail myself of the earliest opportunity to say that my major purpose will be to subserve the same great international purposes that have guided my distinguished predecessors. During the last 15 years Mr. Barrett has performed such conspicuous service to the cause of continental solidarity that the Pan-American Union has come to occupy a high place in the estimation of all the nations of America. Thru his efforts, the unity of purpose of the peoples of America has been strengthened and they all owe to him a very real debt of gratitude."

Mutual Service the Cornerstone "Mutual service is the very cornerstone of the Pan-American movement and this same idea of service permeates and vitalizes the work of the Union. Everyone connected with the organization is constantly seeking new opportunities for service and usefulness. This great international institution is the center to which the governments and peoples of the American republics turn for information. Thru its agency, the fog of districts due to lack of

acquaintance with one another is rapidly being dispelled. The essential unity of purpose and unity of ideals of the republics of America are, with each year, becoming more evident. In this unity of purpose and of ideals there is involved a great world mission—an example of a smooth operating international organization that makes for mutual confidence, good-will and above all, for the maintenance of peace.

"In carrying forward the work of the union, it will be necessary to have the earnest cooperation, interest and support of the leading men and women of all the republics of this continent and I earnestly hope that I may be assured of this indispensable requisite for the solution of the many important problems confronting the Pan-American Union."

Dr. Rowe enters upon the duties of director general of the Union with an intimate knowledge of Latin-American affairs, having served as head of the State Department's division of Latin-American affairs for some time and previous to that having been a member of various commissions for the study of Latin-American subjects. During the world war, Dr. Rowe was an assistant secretary of the treasury. He was secretary of the second Pan-American Financial Conference, which met in 1915 and of the International High Commission an organization of Latin-American republics. Dr. Rowe has received degrees from a number of South American universities.

## PREDICT BIG BUSINESS ON GREAT LAKES LINES

Cleveland, O. — Passenger and package freight lines on the Great Lakes this season will have the biggest business in their history, according to estimates of local vessel men.

The total net tonnage in bituminous and anthracite coal, iron, etc., stone and grain carried by lake freighters, however, they said, will again fall about 25,000,000 tons behind the banner year of 1918. The record was then placed at 114,614,018 net tons. This year's total in these lines is expected to just about equal last year's 91,761,738 net tons.

Officials of passenger boat lines on Lake Erie say the great increase in their business is due to the railroad's inability to handle the volume of business offered them and because of lack of passenger and freight cars, strikes and embargoes. To these same causes is attributed the decrease in freight tonnage under what had been planned for.

Other lines report similar increases in passenger and package freight, also in tourist and tourist automobile travel. Not only are the lake lines carrying local freight between ports, officials say, but they also report a big increase in freight for points adjacent to lake ports, the freight being forwarded by trucks and electric lines to point of destination.

It is estimated that approximately 500 Great Lakes vessels engaged in transportation of coal and iron ore will handle 50,000,000 tons of iron ore and 25,000,000 net tons of bituminous coal in 1920.

Francis Weirath, foreman at Goodrich Rubber Co., Akron, Ohio, who declares he has improved so since taking Tanlac that no one would ever take him to be the same man. Says he gained fourteen pounds.

"To look at me today no one would ever take me to be the same person I was before I began to take Tanlac. It has simply done wonders for me, and I want everybody to know about this medicine," said Francis Weirath, foreman of a large department of the Goodrich Rubber Company plant at Akron, Ohio. Mr. Weirath resides at 210 West State street, that city.

"I was in an awfully bad state of health for fourteen years, and during the past ten years I got to the point where life was a burden. I suffered terribly with indigestion and dyspepsia. I never had any appetite, and all I could eat for breakfast was a soft boiled egg and a little milk. I would get so nervous and miserable that many a night I never slept a wink, and when nothing would bring me any relief I had just about come to the conclusion that my case was hopeless."

"I haven't taken but three bottles of Tanlac, but I feel better than I have felt for twelve years. I've gained fourteen pounds in weight, and am getting heavier and stronger every day. I never have indigestion any more, my appetite is splendid, and I eat just anything and everything I want. I sleep sound every night, and all that tired, worn-out feeling is gone. In fact, I am a well man in every way."

"The men at the plant all tell me I am looking fine these days and getting fat. They all want to know what I am doing to myself and it's always a pleasure for me to tell them about Tanlac."

Tanlac is sold in Jacksonville by Cover & Shreve and by the leading drug store in every town.

## Full Enrollment First Day

In order to make adjustments it is necessary that school children all register the first and second days of school. Only in this way is it possible to arrange the rooms and classes properly.

## Grade School Attendance

All children should attend the school in the district in which they live. The increasing number of children in the city makes it impossible to cross lines without destroying the entire scheme of organization including the possibility of seating.

Sybel's neck is round and adorably smooth and today she told me how to make the hollows disappear from my neck.

"Coco-Bloom—made of pure cocoa butter, with other ingredients of equal merit—is a wonderful tissue builder. Rub it thoroughly into the hollows and soon your neck will be the envy of your less fortunate friends who do not appreciate the value of cocoa butter cream."

## BECOMES DIRECTOR OF PAN AMERICAN UNION

Dr. L. S. Rowe Assumes Directorship of Pan-American Union, Succeeding John Barrett—Has Intimate Knowledge of Latin-American Affairs.

WASHINGTON. — Dr. L. S. Rowe today assumed the directorship of the Pan-American Union, succeeding John Barrett, who retired after 15 years service as directing head of the Union. The transfer of directorship took place in the presence of members of the Latin-American diplomatic corps, Secretary of State Colby and other high officials of the United States government.

The new director in formally accepting the office declared that his policy would be to foster "a smoothly operating international organization that makes for mutual confidence, good-will and above all, for the maintenance of peace."

### MISKE WILL BE NEW MAN ON LABOR DAY

Suffered from Spinal Trouble for Several Years—Now Claims to be Entirely Cured.

Reuton Harbor, Mich., Sept. 2.—When Billy Miske of St. Paul, challenger for the world's heavyweight championship, crawls into the ring here Labor Day afternoon to face the terrific punches that brought the championship to Jack Dempsey, he will literally be a "new man."

Miske, in his match with Dempsey, is attempting one of the most remarkable "come-backs" in the history of glove fighting. Unlike most of the fighters who have been considered out, only to try again, Miske is not coming back from previous defeats. He is grooming himself for his first real fight in nearly eighteen months—a "come back" from physical disability.

The St. Paul heavyweight has gone thru changes in his physique in order to return to the ring—hence the title of "new man," so frequently applied to athletes who have been shuffled into pugilistic discard and then brought forth for

another attempt. Miske claims to be a much more formidable antagonist for Dempsey than when he fought the glove cyclone twice two years ago and stuck thru two gruelling battles without even being knocked down.

After boxing "Battling" Levinisky in Toledo a year ago last July Miske sought the advice of a specialist and learned that he was suffering from spinal trouble and a kidney ailment that dragged him down physically. Miske should not have been fighting at all and the wonder of it is that he did not get knocked out or badly whipped at least. But he did not and his opponents numbered among the toughest in the heavyweight ranks.

After a course of careful treatment and prescribed rest, Miske returned to the ring two months ago, scoring a quick knockout over Jack Moran, a St. Louis heavyweight. Now according to Miske and his manager, Jack Reddy, he is a far better fighter than in either of his first Dempsey fights. Miske was only a light heavyweight when he fought Dempsey then besides being a sick man. Now he is a real heavyweight, boasting of 190 pounds of bone and muscle and claims he will be six times as tough as when Dempsey last saw him.

Miske talks confidently of the coming contest. He does not claim that he is a super-man, but contends that if he pulled thru the fire with the best heavyweights in the business while sick he ought to be able to do much better when blessed with splendid condition.

"Dempsey naturally will be the favorite in the betting," Miske. "He should be. But that's no sign I won't beat him or at least hold him even. The champion is always the choice with the public. But Dempsey has a chin like all the rest and if I manage to land squarely there will be a terrible thud."

Miske is only twenty-six years old—a year older than Dempsey, the champion. The challenger has convinced his admirers that he is better than ever. Whether he is good enough to give Dempsey a lacing is the question that is being seriously discussed.

## MISKE WILL BE NEW MAN ON LABOR DAY

Suffered from Spinal Trouble for Several Years—Now Claims to be Entirely Cured.

Benton Harbor, Mich., Sept. 2.—When Billy Miske of St. Paul, challenger for the world's heavyweight championship, crawls into the ring here Labor Day afternoon to face the terrific punches that brought the championship to Jack Dempsey, he will literally be a "new man."

Miske, in his match with Dempsey, is attempting one of the most remarkable "come-backs" in the history of glove fighting. Unlike most of the fighters who have been considered out, only to try again, Miske is not coming back from previous defeats. He is grooming himself for his first real fight in nearly eighteen months—a "come back" from physical disability.

The St. Paul heavyweight has gone through changes in his physique in order to return to the ring—hence the title of "new man," so frequently applied to athletes who have been shuffled into pugilistic discard and then brought forth for

another attempt. Miske claims to be a much more formidable antagonist for Dempsey than when he fought the glove cyclone two years ago and stuck thru two gruelling battles without even being knocked down.

After boxing "Battling" Levinsky in Toledo a year ago last July Miske sought the advice of a specialist and learned that he was suffering from spinal trouble and a kidney ailment that dragged him down physically. Miske should not have been fighting at all and the wonder of it is that he did not get knocked out or badly whipped at least. But he did not and his opponents numbered among the toughest in the heavyweight ranks.

After a course of careful treatment and prescribed rest, Miske returned to the ring two months ago, scoring a quick knockout over Jack Moran, a St. Louis heavyweight. Now according to Miske and his manager, Jack Reddy, he is a far better fighter than in either of his first Dempsey fights. Miske was only a light heavyweight when he fought Dempsey, then besides being a sick man. Now he is a real heavyweight, boasting of 190 pounds of bone and muscle and claims he will be six times as tough as when Dempsey last saw him.

Miske talks confidently of the coming contest. He does not claim that he is a super-man, but contends that if he pulled thru the fire with the best heavyweights in the business while sick he ought to be able to do much better when blessed with splendid condition.

"Dempsey naturally will be the favorite in the betting," Miske. "He should be. But that's no sign I won't beat him or at least hold him even. The champion is always the choice with the public. But Dempsey has a chin like all the rest and if I manage to land squarely there will be a terrible thud."

Miske is only twenty-six years old—a year older than Dempsey, the champion. The challenger has convinced his admirers that he is better than ever. Whether he is good enough to give Dempsey a lacing is the question that is being seriously discussed.
